

# Welcome to the Cybersecurity Session!

I am Christine Mikijanic, the presenter for this session  
Our moderator is Jesse B. Crawford

In this session, you are an integral part. Your thoughts and comments are not only welcome, but needed.

Please join in to the conversation through chat, or let the moderator know you'd like to speak, and you'll be invited to the stage. We can rotate stage appearances.

Cybersecurity is a new field – this means that the name has many different definitions.

How do you define  
**Cybersecurity?**

When **YOU** think of cybersecurity, what kinds of **problems** do you think of?

Raise your hand or indicate in the chat so our moderator can share your thoughts.

When **YOU** think of cybersecurity, what kinds of **jobs** do you think of?

Raise your hand or indicate in the chat so our moderator can share your thoughts.
