Summary

MY project shows how immigrants come to our country to get jobs and get money to support their families. It also shows how immigrants earn money by working and they spend by paying for their houses. They use some of their energy by going back and forth to work and they have green cards to become citizens.

Problem

The problem is that the illegal immigrants come to our country to get a better life by working and earning money. Illegal immigrants come to this country because corporate America is addicted to cheap labor. The other reason is because immigrants are crossing the border without green cards and they're taking other peoples jobs.

Solution

The solution for solving our problem is by letting immigrants come to our country so they could get green cards. Immigrants come to America because they had a dream they could make a better life by living over here and make they're life easier by getting green cards. Now immigrants have good jobs and they get paid very

good money so they could support they're families
and help the economy.
